🇩🇪 German [C permit]

📄 Summary

Passionate data scientist with with Ph.D. in physics and 10+ years of SW development, analysis and visualization of big data in high-energy physics, retail and financial sector. Strong analytical, statistical, programming and collaboration skills.

🧰 Experience

 **Senior Data Scientist / MLE** 10/2023 - Present
Schweizerische National Bank, Zürich, CH

- Inflation forecasting with classical and ML methods.
- Shared python-project template to facilitate and standardize new projects.
- Development, deployment and maintenance of internal dashboards for team members and management.
- Support of economists in all topics around SW development.

 **(Senior) Data Scientist** 12/2019 - 8/2023
MIGROS, Zürich, CH

- Definition of tasks and code review for an agile team.
- Review of the team members' code.
- An ETL pipeline with multi-process parallelization using pandas + joblib.
- Store revenue modelling using LightGBM and Lasso regressions in python.
- Business-facing dashboard using dash running in k8s using a docker image.
- Implementation and maintenance of CI/CD pipelines in GitLab.
- A/B testing of the project success.

 **Customer-Care Data Scientist** 1/2019 - 11/2019
KNIME, Konstanz, DE

- Customer support for the product.
- Implementation of model interpretation algorithms: K-LIME.

 **Physics researcher** 8/2008 - 6/2018
DESY, Heidelberg University, CERN

- Assessed classifiers of heavy particles exploiting designed features: DNN and GBT have shown twice better performance than historic methods.
- Mined through events on huge datasets of 100+ PB using high-throughput computing with data visualization on a local machine.
- Advanced parallelization of high-precision Monte Carlo predictions taking more than 100.000 CPU hours. Boosted the speed of production by 60%.
- More than 10 publications in scientific journals.

⚙ Skills

5+ years 3 years 1 year

Programming languages

🐍 Python 🐳 Bash 🗄 SQL

DS + ML

Pandas Matplotlib Plotly
Dash PySpark MLflow
Scikit-learn DuckDB

DevOps

🐶 GitLab 🔄 GitHub
Airflow G GCP 🐳 Docker
Kubernetes Terraform

Tools

🔍 Jira VS Code
📄 Mkdocs Copier
🍪 Cookiecutter Pre-commit
Typst

🎓 Education

PhD Particle physics
Hamburg University

🗨 Languages

English	Fluent
German	B2
Ukrainian	Native

💡 Personality

- Pragmatic
- Builder of tools for others
- Problem solver
- Statistics & Math
- Analytic thinker
- Quality conscious
- Good communicator
- Eager learner
